🪪 Profile

Driven engineering student passionate about exploring and mastering cutting-edge technologies. Motivated by continuous learning and committed to leveraging technology to solve real-world problems.

🎓 Education

2023 – present	**Bachelors Degree In Computer Engineering** *Thadomal Shahani Engineering College*
2020 – 2023	**Diploma In Computer Engineering** *Vivekanand Education Society's Polytechnic* CGPA: 81.83%

🎨 Skills

Languages
Java, PHP, C , C++, Javascript, Python, Kotlin, SQL, HTML, CSS, ReactJS, NodeJS

Framework
Laravel, ReactJS, NodeJS, JDBC Api, Bootstrap, Materialize CSS, PostCSS, Selenium, Cypress, Cucumber

Tools
Git, Gitbash, Figma, VS Code, Apache Netbeans, Postman, Xampp, Oracle DB, Jetbrains IDE, Android Studio, Webpack, Babel

Salesforce
Proficient in Salesforce CRM with approximately 11,000 Trailhead points, demonstrating a strong foundational understanding and commitment to ongoing learning and mastery.

💼 Professional Experience

OneStopEngineering   06/2024 – 08/2024
Software Engineering Intern - Real Estate Team
- Developed and optimized modules for property listing, lead management, and real estate data visualization on the frontend, enhancing user engagement.
- Implemented features for displaying property details, managing leads, and tracking property visits, improving the overall customer experience.
- Collaborated with cross-functional teams to ensure software quality using automation testing tools like Cypress and Selenium, while following BDD principles.
- Contributed to sprint planning and task management using Kanban boards, ensuring efficient delivery of real estate-specific features and functionalities.

📂 Projects

Pen It Blog | Backend, Laravel, MVC, Auth | May 2023
A dynamic blogging platform allowing authors to create, edit, and publish articles or save them as drafts. Readers can explore a wide range of topics, engage with content through comments, and follow their favorite writers.

Quill-Plus Testing | Cypress, Cucumber, BDD, Automation Testing | July 2024
A Laravel web app with automated testing via Cypress, Cucumber, Selenium, and API tests, using BDD for seamless integration and continuous delivery.

E-Mart | Laravel, RESTful API, middleware | July 2023
Created an ECommerce platform using Laravel, which includes a RESTful API. The platform also incorporates middleware for managing requests and enhances user interaction with email notifications.

CodeBase Builder | PostCSS, Webpack, BEM, Hot Module Replacement | October 2023
Implemented a tours and travels website using PostCSS and Webpack, featuring modern CSS styling, efficient module bundling, hot module replacement, and BEM methodology.

Messaging Bridge | Java, Socket programming, XML, Caeser Cipher, Multithreading | February 2023
A Java Swing application for client-server communication, implementing multithreading and Socket Programming. The app manages XML data and integrates with a MySQL database for enhanced functionality.

🏆 Certificates

- Front End Web Development, Studylink 2022
- Back End Web Development, Studylink 2023
- Automation Testing, StudyLink, 2024
